Hardware warranty period shall be limited to 5 yrs from date of purchase by the end user/ customer and warranted only to the person or entity that originally purchased the product from the Company's authorized reseller or distributor. The date of sale will be verified from the original bill/ proof of purchase. In case this original bill is not available, the Company's date of invoice shall be considered for this purpose. The Customer's sole and exclusive remedy and the entire liability of the Company and its suppliers under this Warranty will be, at the Company's option, to repair or replace the defective Hardware during the Warranty period at no cost to the original owner. Any repair or replacement will be rendered by the Company at its Service Centre. The replacement hardware need not be new or have an identical version, model or part. The Company may, at its option, replace the defective Hardware or any part thereof with any reconditioned product that the Company reasonably determines is substantially equivalent (or superior) in all material respects to the defective hardware. Repaired or replaced hardware will be warranted for the remainder of the original Warranty period.

If a material defect is incapable of correction, or if the Company determines that it is not practical to repair or replace the defective Hardware, the actual price paid by the customer as per the invoice, less prorata depreciation at the rate of 20% per annum will be refunded. The Company further warrants that, during the Software Warranty period, the Company disk on which the Company delivers the Software will be free of physical defects. The customer's sole and exclusive remedy and the entire liability of the Company and its suppliers under this Limited Software Warranty will be, at the Company's option, to replace the non-conforming Software (or defective media) with software that substantially conforms to the Company's functional specifications for the Software or to refund the portion of the actual purchase price paid that is attributable to the Software. Except as otherwise agreed by the Company in writing, the replacement Software is provided only to the original licensee, and is subject to the terms and conditions of the license granted by the Company for the Software. Replacement Software will be warranted for the remainder of the original Warranty period and is subject to the same limitations and exclusions. If a material non-conformance is incapable of correction, or if the Company determines in its sole discretion that it is not practical to replace the non-conforming Software, the price paid by the original licensee for the non-conforming Software will be refunded by the Company, provided that the non-conforming Software (and all copies thereof) is first returned to the Company.
