DIGISOL CONVERGEX LOCKABLE PATCH CORD, CAT 6, UTP

Secured patch cord with locking key for data centre applications

Introduction:-

DGISOL Convergex Secure Lockable patch cord to prevent unintended or unauthorized disconnection of the cord. The patch cord requires special unlock key for removal, but it can be freely inserted into an outlet to secure the connection. Security Key lock in plug is used on the Rj45 connectors for added security .

The Secure lockable patch cord is compatible with al UTP RJ45 outlets. Slim line and compact design Suitable for highly critical facilities.

Key Features:-

- Comes with lock and key design for data centre security needs
- 24 AWG
- LSZH jacket
- 50 micron gold plated RJ45 Contact pins

CAT6 UTP LSZH FR-PVC RoHS Compliant

MADE IN INDIA

Applications:-

Data centre , Airport , Train station, Financial centre , Healthcare centre, Conference rooms.

Technical Specifications:-

Standards:
Channel performance verified to ANI/TIA-568-C.2-1:2002, Category 6 CM grade FR-PVC – comply with the UL flame exposure described in UL 1685
Supports 1000BASE-T Ethernet
Lead-free & RoHS compliant
Meet the ANSI/TIA-568-C.2, ISO/IEC 11801 2nd edition and CENELEC EN 50173-1 standard

Mechanical:
Mechanical operation: 750 cycles minimum for insertion / withdrawal with modular jack
Effectiveness of connector coupling devices: 50N (11lbf) for 60s ± 5s.
Insertion and withdrawal forces: 30N maximum

Environmental:
Temperature: -40°C~ 60°C
Humidity: 10% ~ 90%RH

Ordering Information:-

Product Code	Description
DGCE-PC6UMGY-1F-LP	DIGISOL CONVERGEX PATCH CORD, CAT 6 UTP, FRPVC, LOCKABLE, 1M

* Available in Blue / Red Locking

DIGISOL is a Subsidiary of Smartlink Holdings Limited
