THE FATHER OF INDIAN IT NETWORKING INDUSTRY

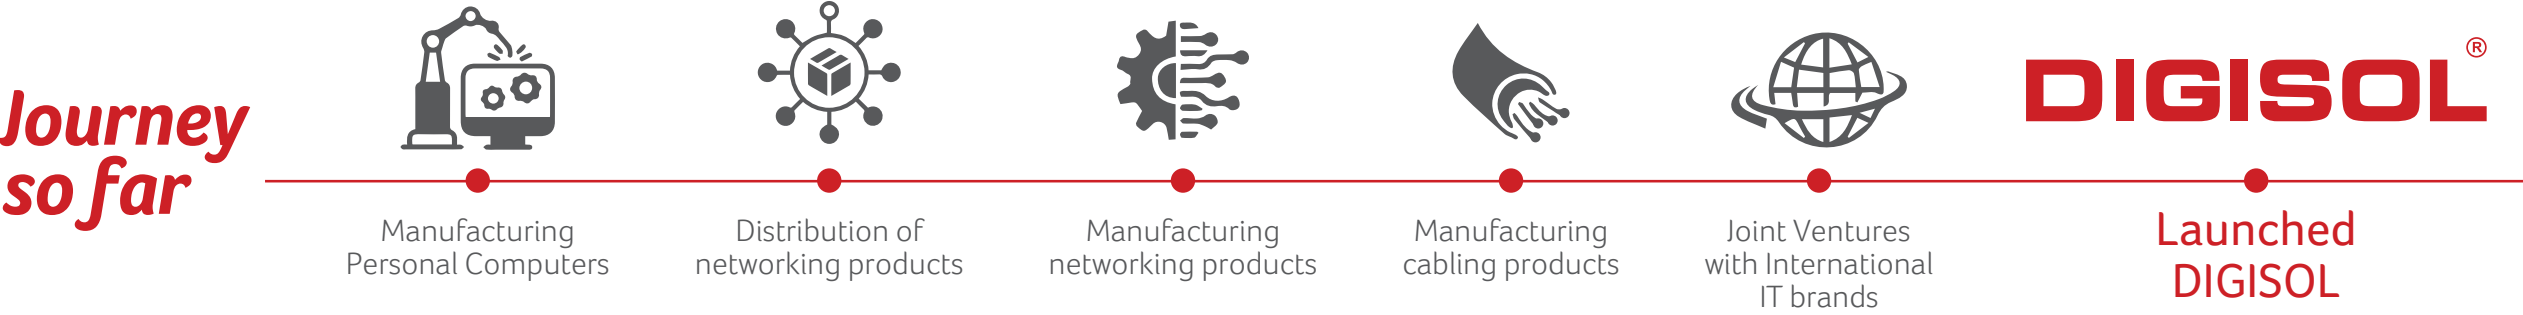

Kamalaksha Rama Naik, widely recognized as K. R. Naik, is regarded as the pioneer of India's IT Networking Industry, credited with introducing IT networking products to the country, establishing the channel distribution ecosystem, and spearheading the local manufacturing of these products.

Born in 1947, the year of India's independence, Mr. Naik's remarkable career has been instrumental in shaping the country's IT sector. Beginning as a Mainframe Peripheral Assembly Engineer at IBM in 1969, he went on to innovate new business models and distribution strategies in the early 1990s when the IT industry was still in its infancy.

Mr. Naik played a pivotal role in establishing channel distribution for global brands like Cisco and Foundry, while also forging joint ventures with renowned

companies such as D-Link, Gigabyte, LANNER, and SAPPHIRE UK. In 1993, he founded Smartlink, a BSE | NSE listed company, and India's first indigenous manufacturer of IT networking products. DIGILINK, a homegrown brand specializing in passive networking with patented contact designs was launched by Smartlink.

In 2009, Mr. Naik introduced DIGISOL, India's inaugural active networking brand, which later became a subsidiary of Smartlink. Today, SMARTLINK is a BSE/NSE listed company, with over three decades of expertise in IT networking solutions, including ONU's, switches, structured cabling systems, motherboards, and more. With a state-of-the-art R&D center in Bengaluru, Smartlink continues to drive innovation and excellence in the industry.

DIGISOL SYSTEMS LTD.

DIGISOL is a well-established Indian brand offering a comprehensive range of IT networking solutions, including both Active and Passive products. The Active range covers FTTH, Wi-Fi, and switching solutions, while the Passive range includes copper and fiber products.

As a pioneer in supporting the government's Make in India initiative, DIGISOL is the first Indian IT networking brand and is a wholly owned subsidiary of SMARTLINK, which is a BSE/NSE listed ODM/EMS manufacturing company with over three decades of expertise. It is the only Indian IT networking brand with a robust nationwide presence, supported by:

DIGISOL was established when SMARTLINK decided to launch its own brand, leveraging its extensive manufacturing infrastructure, nationwide distribution network, and three decades of experience in IT networking products.

DIGISOL remains committed to delivering innovative, future-ready products, ensuring it meets consumer needs in the IT networking space. Today, DIGISOL's position is solidified as a preferred brand across various industry verticals in India, trusted by both system integrators and end customers.

DIGISOL’S SOLUTIONS

DIGISOL is one of the leading IT Networking brands of India. Digisol innovates and offers top-notch end-to-end IT networking products, solutions and design assistance that cater to Enterprise, Mid-market as well as SOHO segments.
