CHRIST UNIVERSITY
BANGALORE

Modernising Education With Our Wireless Solutions

CASE STUDY

Name : **CHRIST UNIVERSITY**

Industry : **Education**

Location : **Bangalore**

INTRODUCTION

Colleges and Universities are the places which build tomorrow's nation, and the students over there, need proper infrastructure to equip their skills. A proper internet facility is a part and parcel of any educational institution which projects itself as a good infrastructure provider.

An internet-less educational institute won't be able to provide the required learning and skill-enhancing facilities to their students.

CHRIST UNIVERSITY

Christ University is one of the renowned private deemed universities in Bengaluru, Karnataka, which is ranked as the 5th most trusted educational institute by TRA (formerly Trust Research Advisory).

The university opened its new campus in the Bannerghatta location of Bengaluru. The new campus has three buildings that include an auditorium, cafeteria, hostel, Library, Laboratories, and a fitness centre.

KEY CHALLENGES

Christ university wanted to provide an updated and advanced learning experience to their students, to achieve this, fast, stable, and secure network connectivity was required

PROPOSED SOLUTION

Christ University IT team wanted to provide a seamless internet connection that would cover all 3 buildings on the campus. After a comprehensive site survey coupled with a necessary Proof Of Concept (POC), DIGISOL's team develop a network plan that would meet the demands outlined by the Christ University IT team.

HOW DIGISOL EXECUTED THIS

"Are you looking to improve your IT infrastructure? Look no further! Our team at Digisol recently completed the implementation of a comprehensive IT infrastructure for Christ University.

To give you a better understanding of the work we did, we've created a video that takes you through the entire process. From the initial planning stages to the final implementation, the video covers it all. You'll see the server room set up, the installation of fibre cables and the final touches on the WiFi network. With this video, you'll have a clear understanding of the level of expertise and attention to detail that went into this project.

CLIENT 'S DELIGHT

The Christ University's management expressed intense satisfaction with their newly implemented solution With the new network infrastructure students are now able to access critical learning tools such as study resources and the internet with very ease from anywhere in the campus.

THE REQUIREMENTS

Enhanced Wi-Fi Coverage	Cost effectiv	Easy to Manage set up
The connectivity must be excellent and cover all the 3 buildings.	Entire setup should be completed within the prescribed budget.	Network should allow University IT team to easily manage & monitor.
